

## A B S T R A C T

A LIP GASKET FOR A COOKING APPLIANCE AND A COOKING  
APPLIANCE EQUIPPED WITH SUCH A GASKET

5

A lip gasket (1) designed to be mounted between the  
lid (2) and the bowl (3) of a cooking appliance (4) for  
the purpose of providing sealing between said lid (2) and  
said bowl (3); said gasket (1) comprising at least first  
10 and second lips (1A, 1B), interconnected by a heel, said  
lips (1A, 1B) and said heel (1C) being such that, when  
the lips (1A, 1B) are brought together, they are suitable  
for defining a closed interstitial space (100), said  
gasket (1) being characterized in that it is provided  
15 with at least one geometrical discontinuity (80) suitable  
for acting, when the lips (1A, 1B) are brought together,  
to provide at least one path (9, 90) for putting said  
interstitial space (100) into communication with the  
outside. The invention applies to household cooking  
20 appliances.
